Community Advisory

Brown County Fairgrounds Master Plan Survey Release

BROWN COUNTY, WI: The Parks department has partnered with Rettler Corporation to develop a Master Plan of the Brown County Fairgrounds property.

The final Plan will address future connections to Ashwaubomay Park and De Pere's boat landing, riverfront recreation, current building condition and future building needs, camping and other fair/festival needs.

This is one opportunity for you to express your thoughts in a quick and easy way.

“One of the most important components of the Master Plan is assessing what the needs of our community are, and public participation will assist in aligning the fairgrounds property with future needs”, says Matt Kriese Asst Parks Director.

The survey is available now and it must be completed no later than Friday, October 27th.
