

# Suamico Area Joint Municipal Court

## Community Service Options

It is your responsibility to contact a non-profit organization to perform your community service hours and you (the defendant) are responsible to turn in your hours to this Court.

1. The service must be performed for a NON-PROFIT agency or organization.
2. The service must not involve any work that the defendant normally performs.
3. The defendant CANNOT receive any monetary compensation for the work.

Service hours CANNOT be done for an individual or at a for profit business. These are some examples of service that will NOT count: Shoveling snow for your grandmother, babysitting for your neighbor, mowing lawns for a yard care service, or washing windows at a business.

To insure that you receive proper credit for the service that you perform, make sure that the non-profit agency or organization is informed that you are under a Court Order to perform the hours assigned and that the agency/organization completes the attached Community Service Completion Form. When you contact a service organization to set up your hours, ask to speak to the volunteer or community service coordinator.

*The locations on this list are only examples of places that you may wish to contact about community service hours. These organizations may not accept you as a volunteer due to your offense, age or availability. Your participation is entirely at the discretion of the organization. You must follow the rules of the location supervisor. If you do not meet the site supervisor's requirements, the hours may not count. Here are a few suggestions:*
